SALMONELLA NEWPORT BACTERIAL EXTRACT**AgriLabs****Conditional License****Siderophore Receptors and Porins**

INDICATIONS: For use in cattle 6 months of age or older as an aid in the control of disease and fecal shedding caused by infection with *Salmonella* Newport.

COMPOSITION: This vaccine contains a bacterial extract derived from *S. Newport*, comprised of purified Siderophore Receptor and Porin (SRP[®]) proteins, in an oil-based adjuvant. Contains formaldehyde and polymyxin-B as preservatives.

DIRECTIONS: Shake well before use. Administer 2 mL (1 dose) subcutaneously ahead of the shoulder. Revaccinate in 2 to 4 weeks. Dry cows and bred heifers should be vaccinated twice before calving; whole herd vaccination may be done at any stage of lactation as an aid to control salmonellosis. Revaccinate annually.

CAUTION: Store at 35°-45°F (2°-7°C). Do not freeze. Use entire contents when first opened. Do not vaccinate within 60 days prior to slaughter. Transient swelling may occur at the injection site. In the case of anaphylactoid reactions, administer epinephrine immediately. Contains an emulsified adjuvant; in case of self-injection, seek immediate medical attention.

The product license is conditional. Efficacy and potency test studies in progress.
