

50 doses • 100 mL

Moraxella Bovoculi Bacterin

Manufactured by:
Addison Biological
Laboratory, Inc.
Fayette, MO 65248

Distributed by:
AgriLabs
St. Joseph, MO 64503

COMPOSITION: This vaccine contains formalin inactivated isolates of *Moraxella bovoculi*.

INDICATIONS: For the vaccination of healthy cattle 14 weeks of age or older against pinkeye (infectious bovine keratoconjunctivitis). This product license is conditional; efficacy and potency have not been fully demonstrated. For more information regarding safety data, see productdata.aphis.usda.gov.

DOSAGE: Shake well. Administer a 2 mL dose subcutaneously to cattle 14 weeks of age or older. Repeat vaccination in 21 days.

CAUTION: Store at 35 to 46° F (2 to 8° C). DO NOT FREEZE. Shake well before and during use. Use entire contents when first opened. Transient swelling may occur at the injection site. In case of anaphylactic reaction, administer epinephrine or atropine. Do not vaccinate within 21 days before slaughter. For animal use only. Do not mix with other products, except as specified on this label. In case of human exposure, contact a physician. This product has not been tested in pregnant animals. The need for annual booster vaccinations has not been established for this product; consultation with a veterinarian is recommended.
